## Core Competencies

### Introduction:

National Battery Supply is a manufacturer of Deep Cycle Lithium and LiFePO4 Batteries, Energy Storage Systems and Portable Backup Power for use in Telecommunications, Data Centers, Solar Battery Installs, Golf cars, Marine equipment, Industrial and Military applications- energy power storage and supply.

### Core Competencies:

- **Battery Technology Leadership:** Industry-leading knowledge in advanced battery technologies, ensuring sustainable power solutions for government / military diverse operational demands.
- **Customized Power Solutions:** Tailored battery design and production capabilities to meet specific agency requirements, ensuring optimal performance and longevity.
- **Supply Chain Excellence:** Seamless supply chain management, ensuring consistent supply on demand.

## Past Performance

**Eagle Eye Networks:** 1k pcs 12v 55ah Lithium Batteries to support solar power energy backup.

**Direct Macro:** 1k pcs 12v 200ah Lead Acid Batteries to support data center backup power.

**Consumers Energy Group:** 500 pcs 300W Portable Power Station for fleet support.

**Mid-Illinois Companies:** 1k pcs 12v 55ah Lithium Batteries to support solar power energy backup.

## Differentiators

- **Vertical Integration:** Complete control over production ensures quality, cost-efficiency, and tailored solutions.
- **Agile Customization:** Swift adaptation to evolving needs without compromising quality.
- **Scalability:** Robust supply chain for uninterrupted support, regardless of demand fluctuations.
- **Strategic Partnerships:** Access to cutting-edge technology through key alliances and research collaborations.

## COMPANY DATA

National Battery Supply provides cutting-edge power supply solutions tailored to the unique needs of government agencies, military branches, and specialized forces.

Our commitment to excellence, reliability, and innovation sets us apart in the industry.
